

# AGIP GREASE

AGIP GREASE 15 and 16 are green colour, fibrous calcium-base greases for vehicle chassis lubrication.

## CHARACTERISTICS (TYPICAL FIGURES)

AGIP GREASE		15	16
NLGI consistency		1	2
Worked penetration	dmm	325	280
ASTM dropping point	°C	140	140
Base oil viscosity at 40°C	mm <sup>2</sup> /s	95	95

## PROPERTIES AND PERFORMANCE

- AGIP GREASE 15 and AGIP GREASE 16 provide efficient lubrication of all chassis parts. They reduce wear and ensure long life and trouble-free operation. They are water-resistant and can therefore be used in moist conditions and in contact with water.
- AGIP GREASE 15 and AGIP GREASE 16 adhere tenaciously to working surfaces and effectively resist displacement by vibrations which tend to throw off other types of grease.

## APPLICATIONS

AGIP GREASE 15 and AGIP GREASE 16 are expressly designed and produced for the lubrication of vehicle chassis, even when subject to severe vibrations, shocks and stresses in general.
